The **AIAr Meeting** devoted to **Science** applied to conservation, study, authentication of **Contemporary Art Works**, will be held in Ferrara since March, 1st to 4th 2011, in the Imbarcadero rooms at Castello Estense.

The Meeting will be organized into oral and poster sessions, focused on archaeometric applications concerning art of the last two centuries, including:

- Archaeometry of new art forms
- Diagnostics and conservation of contemporary architecture
- Image diagnostics
- Materials and artistic techniques
- Authentication methods
- Monitoring, maintenance and survey

Contributions not specifically related to the theme of the conference will still be considered and, if accepted, included in the poster session.

The conference will be introduced by a **day of study and training** in artistic techniques and materials used by artists today: what is needed to know **to preserve contemporary art**. Primarily dedicated to young professionals in the field of Technologies Applied to Cultural Heritage, the day aims to provide a common knowledge base for those who undertake research in this area.
